When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with litha, and has been used for generations to clean clogged kidneys and stimulate them to normal activity; also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which every one should take now and then to keep the kidneys clean and active. A regulation requiring the pasturization of milk sold in this city was eventually put through. The Sanitary Milk Dealers' Association was back of it. Pasteurization costs a lot of money. The Sheffield Farms organization has about \$2,000,000 tied up in pasteurization plants.

Small dealers cannot pastuerize milk. The big dealers have a monopoly of that process. Concerning pasteurization, Mr. Lewis said to-day that he believes the people of this city ought to be able to choose between fresh raw milk and pasteurized milk.

WILSON IS CAPABLE AND HAS HIGH IDEALS, SAYS DR. F. W. TAUSSIG

Head of Department of Economics at Harvard Tells Why He Will Vote for Him.

BOSTON, Oct. 19 .- Dr. F. W. Tausdg, head of the department of economics at Harvard University came out to-day in favor of the recisction of President Wilson. He credits the President with having shown skill and tact in governmental business and industrial measures, and says the Republicana propose no discoverable change in domestic policy except on the tariff, "where they threaten to re-turn to crude protectionism." Dr.

Taussig says:
"I shall vote for President Wilson because I believe him to be a man of high ideals and, at the same time, a commanding political leader. His policy with regard to the European war has been one of calm and sincere neutrality, with out bluster and withwar has been one of calm and sincere neutrality, with out bluster and without weakness. His Mexican policy has been based on a deep desire to aid the people of that unhappy country, and to convince all the South American states that we have no intentions of aggression or conquest; and it has saved us from the calamity of a jingo war.

"The Republicans offer nothing but a vague, yet ominous, policy of firm-ness, and question-begging talk about 'true Americanism.'

"No man who is confronted with the responsibility of settling courses of action on matters so difficult as these action on matters so difficult as these of the last four years can always reach the precise decisions which the later course of events will justify. It is easy to allege mistakes in foreign and domestic policy. I have differed with the President on the method followed by him in dealing with the ratiroad strike situation. But his Presidential career shows a clear prependerance of wisdom and achieved success and there is conchieved success and there is vincing evidence of high capacity, fine character, noble ideals, I shall vote for President Wilson."
